

Questions and Answers, Part 1 – Water Well Master Contract 2013

Date: May 21, 2013

County: Statewide

Project Description: Provide water well services to include, but not limited to the decommissioning of water wells and boreholes – Statewide.

Dates Published in Clarion Ledger: May 1st and 8th, 2013

From: Scot Ehrigott, P.E. – MDOT Director of Consultant Services

Question #1: MDEQ Regulation LW-3 provides for two categories of water well contractors, restricted and unrestricted. Restricted drillers typically perform environmental or geotechnical drilling, but may be otherwise capable of plugging and abandoning water wells. Is it MDOT's intention to require the selected driller to have the "unrestricted" license category?

Answer: MDOT prefers contactors with unrestricted licenses.
